

Risk Management Considerations for Road Line Painting

Third party property damage claims can occur as a result of a municipality's road line painting operations. Here are a few suggestions for your work crews to consider:

- Make sure a second vehicle follows the line painting truck to protect it from other cars getting too close.
- Where practical, cone off the operation.
- Use message boards and crash attenuators.
- Take into account the weather conditions and suspend painting on windy days.
- Test the paint, under various weather conditions, prior to applying it to your roads to determine applicable drying time.

Follow these risk management considerations to avoid property damage claims.
