

Helping Communities Become More Cyber Resilient

Cyber threats continue to evolve, becoming more frequent and sophisticated. Strengthening your cybersecurity can help reduce operational, financial, and reputational impacts.

At Intact Public Entities (IPE), we are committed to helping municipalities and community service organizations become stronger and more resilient. IPE has partnered with Edgeworx, to bring clients access to cybersecurity solutions at preferred rates, reducing the complexity and cost of managing cyber risk.

Mitigate Your Cyber Risk

Protect your critical assets and build cyber resilience by:

- Identifying potential vulnerabilities
- Protecting critical systems, services and sensitive information
- Reducing the risk of disruption
- Implementing practical, ongoing cybersecurity measures
