

FAQs: Edgeworx Cybersecurity Services Available at Preferred Rates to Intact Public Entities Clients

Who is Edgeworx?

Edgeworx is a Canadian cybersecurity advisory firm that helps clients better understand their cyber risk exposure, regulatory obligations, and operational readiness. Through targeted assessments, strategic guidance, and practical recommendations, Edgeworx supports organizations in identifying vulnerabilities, strengthening cybersecurity practices, and improving overall resilience against evolving cyber threats.

Why has IPE partnered with Edgeworx?

At Intact Public Entities (IPE), we are committed to helping municipalities and community service organizations become stronger and more resilient. Cyber threats continue to evolve and can have significant operational, financial, and reputational impacts. This partnership with Edgeworx helps IPE clients identify potential vulnerabilities, strengthen their cybersecurity practices and better protect the people and communities they serve.

Who is eligible to receive the preferred service rates?

Discounts on Edgeworx services are available to new and existing IPE clients. Clients interested in learning more can contact Barry Hohol at barry.hohol@edge-worx.com.

Do Edgeworx services improve my cyber insurance application and coverage?

Assessments, reviews and other services offered by Edgeworx can help you identify and address cybersecurity risks. However, these services do not guarantee improved insurability, coverage or premiums.

How do I get started?

Connect with your IPE Representative, or contact Edgeworx's Barry Hohol at: barry.hohol@edge-worx.com and 289-962-1514
