Municipal Expertise

Municipalities are at the heart of our business. Established in 1927, we are the longest running provider of municipal insurance programs with hundreds of clients across Canada. Over the years we've built long-term relationships with communities and are dedicated to supporting municipalities with specialized in-house risk, claims, marketing and underwriting services. We have heard time and time again that our team and depth of expertise is unparalleled in the marketplace. When you choose IPE, you are choosing to partner with the best.

Advocacy & Municipal Association Support

IPE advocates and supports public entities across the country. Our employees are continually recruited to serve on legislative committees and are aware of changes that will be introduced. We can move quickly to help you begin to modify your policies and procedures to maintain regulatory compliance.

Using specialized software, thermal imaging cameras, and other advanced tools – including our Self-Inspection App – our team delivers detailed, facility-specific assessments to help identify potential risks and recommend actions to reduce the frequency and severity of incidents. Whether conducting full on-site reviews or supporting remote data collection, our inspections are tailored to meet the diverse needs of our clients, including liability-only exposures.

Municipal Education

Education & Seminars

Over 10,000 municipal employees from almost every department have received training from IPE over the past few years. Training can be provided through customized sessions on the topics of your choosing or be tied to a policy/procedure review or claims review. We can also provide training through a webinar format and record these webinars so your managers can use them at any time to train new staff or as a refresher for existing staff. We are always interested in hearing from you as to the type of training your municipality requires.
